

# Scholarship Recipients

## SCHOOL OF ENGINEERING

The School of Engineering is proud to introduce sixteen outstanding scholarship recipients. These recipients are being awarded from the following scholarships:

- Al Burrows Memorial
- Bower Award
- ERE Community Award
- ERE Delta Award
- GHD Leadership Award
- Homer Arnold Award
- Robert and Suzanne Wienke
- Robert W. Campbell, Sr.
- Roscoe-Schenler Award
- SHN Marty Lay Award
- The Thomas William Warnock Outstanding ERE Graduate

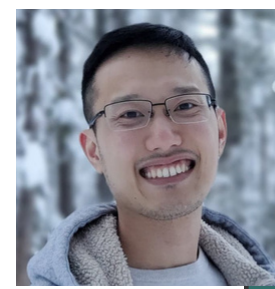

Thanks to the generous support of our donors, these students have received nearly \$12,000 to support their continued success. While the students highlighted here are truly amazing, we have many more students who are deserving of recognition. Our engineering community is thriving and we are honored to support all engineering students who will lead the way into our future.

### Elizabeth Odell

Elizabeth Odell is a third year Environmental Resources Engineering student at Cal Poly Humboldt. After graduating, she hopes to have a career that contributes to finding sustainable solutions to climate related issues. She has research experience through Schatz Energy Research Center and the Colorado School of Mines and will be working on a water resources research project this summer in the Peruvian Andes. She is on Humboldt's NCAA triathlon team and is an officer for the cycling club.

Robert W. Campbell, Sr.

### Minh Truong

Minh is a senior Environmental Resources Engineering student at Cal Poly Humboldt. Minh is passionate about protecting the environment and finding innovative solutions to the world's energy challenges. His primary interest lies in wind energy, which he believes is a promising and sustainable power source for the future. After graduation, Minh's career goal is to work in the wind energy field. He is a part of the Renewable Energy Student Union and Archery clubs, and has achieved bronze, silver, and gold certificates.

Robert W. Campbell, Sr.

### Kyle Wolfe

Kyle Wolfe is a senior student studying Environmental Resources Engineering at Cal Poly Humboldt concentrating his studies on energy resources. Kyle is passionate about sustainable energy and is currently working towards an engineering career in energy efficiency and renewable energy systems. This summer, he will be working with an engineering firm in the Bay Area that conducts building energy analyses for some of the largest companies in Silicon Valley.

Robert & Suzanne Wienke

### Natalie Mendez

Natalie is a first-generation Chicana whose family immigrated to the United States from Michoacán. She graduated with a bachelor's in Environmental Resources Engineering in the spring of 2023 and will return this fall for a master's in Engineering and Community Practice. Her desire to pursue a career in engineering spurs from her determination to protect people of color, indigenous, immigrant, and low-income communities that are disproportionately affected by harmful environmental factors.

SHN Marty Lay Award

### Angel Ortiz

Angel Ortiz successfully graduated from Cal Poly Humboldt with a bachelor's degree in Environmental Resources Engineering and a minor in Native American Studies: Law and Policy. Her career goal is to work as an engineer in river restoration and to collaborate with local Indigenous tribes to include various perspectives and types of knowledge when working in the environment. Now that she graduated, she is applying to small engineering firms to work as a hydraulics engineer.

ERE Community Award

### Aidan Wilson

Aidan is a first-generation student who grew up in Humboldt County. He recently graduated from Cal Poly Humboldt where he studied Environmental Resources Engineering. His goal now is to pursue a career in water and wastewater treatment. His desire to join this field comes from growing up near the Mattole River and learning about his father's work as a wastewater operator in Shelter Cove. Aidan has also worked as mentor to other students within the program and enjoys supporting his community.

ERE Community Award

# Scholarship Recipients

## SCHOOL OF ENGINEERING

### Claire Ingvoldsen

Claire graduated in the spring of 2023 with a bachelor's degree in Environmental Resources Engineering. She transferred from Chico State and has focused her time on water resources. After graduation she hopes to pursue a PE and work in hydraulics or restoration engineering.

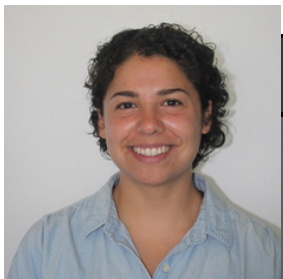

Homer Arnold Award

### Grace Johnson

Grace Johnson studied at Cal Poly Humboldt and graduated with a bachelor's degree in Environmental Resources Engineering. Her career goal is to become a professional engineer working with water. She is passionate about water accessibility and dreams to bring clean drinking water to areas that don't have access or treatment for it. In her free time she tutors for engineering classes and especially enjoys helping with computer programming.

ERE Delta Award

### Tatiana Gamboa

Tatiana Gamboa is living proof that anyone can do anything with a strong community and resilience. Her indomitable personality has gotten her this far, 7 years in school with 2 more to go. She just wants everyone to be happy and have fun. Therefore, she will be participating in fulfilling activities with her friends this summer. She'd like for you to hit her up for cool resources and/or a dancing buddy.

Al Burrows Memorial

### Romel Robinson

Romel Robinson graduated from Cal Poly Humboldt in the spring of 2023 with a bachelor's degree in Environmental Resources Engineering. He is now pursuing a master's degree in Engineering and Community Practice. Romel's career goal is to develop underserved communities through engineering practices and teach engineering as a college professor. He has participated in Division II Track & Field, as well as worked as a substitute teacher. In the summer, he plans to work as a Student- Researcher at Redwood Energy Authority in Arcata.

ERE Delta Award

### Jacoby Taylor

Jacoby Taylor completed his degree in Environmental Resources Engineering with a minor in mathematics. While performing exceptionally well in his courses, he has served half that time as an embedded tutor in multiple engineering courses and worked at the Campus Center for Appropriate Technology. He has also worked as a hydrologic technician and researcher for the US Geological Survey for the last two years. Jacoby is now working as a water resources and hydraulic engineer in Sacramento.

The Thomas William Warnock Outstanding ERE Graduate

### Ben Hung

Ben Hung is a Junior in Cal Poly Humboldt's Environmental Resources Engineering bachelor's degree program. His goal is to become a professional engineer, and his professional interests include renewable energy, potable water and wastewater engineering, and environmental restoration and management. He is also pursuing minors in GIS and Physics. He is the Treasurer of Cal Poly Humboldt's Aviation Club, and would love to find a professional pathway that merges engineering with GIS and aviation.

Roscoe-Schenler Award

### Valerie Keody

Valerie Keody is a Junior at Cal Poly Humboldt pursuing a bachelor's degree in Environmental Resources Engineering. She is a Treasurer for both the Society of Women Engineers and the Environmental Resources Engineering Student Association.

SHN Marty Lay Award

### Jacob Rivera

During the summer before his last semester at Cal Poly Humboldt, Jacob Rivera was hired as an intern in SHN's civil department. After graduating in December 2022, he was hired as a staff engineer. While gaining a wide range of skills and experiences, Jacob is setting his sights on obtaining his PE as soon as possible and becoming the best civil engineer he can be to serve his local Humboldt community.

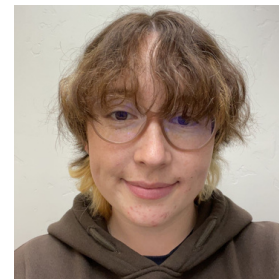

The Thomas William Warnock Outstanding ERE Graduate

### Jayde Daynard

Jayde is from McKinleyville, CA and is graduating from the ERE program in fall of 2023. She enjoys backpacking and hobbies that involve making things with her hands (such as woodworking, sewing, ceramics, and leatherworking). She has made many things over the years like a chessboard, clothing, a leather belt, and a pair of slippers. She is honored to be a part of the ERE community.

Bower Award

### Lacey Harrigan

Lacey is a third-year student at Cal Poly Humboldt pursuing a bachelor's degree in Environmental Resources Engineering. She's from Sacramento, CA, loves reading in her free time, and is the current president of the Society of Women Engineers. She is a student assistant for ENGR 115 and loves being able to meet and interact with the new students in the program.

GHD Leadership Award
